

Beverage Service

We offer a variety of bar options and you may choose a specific setup or combine them throughout your evening. Your in-house event coordinator will work with you to help select the right beverage service for you and your event.

We do not require minimum purchases on your bar. However, with any private bar there is a service and setup fee.

There are many different combinations you can use on your bar such as:

Host Bar – A host bar is billed to the master account or any other designated account. Our beverage personnel will keep a running total of all drinks served during the time specified.

Ticket Bar – We will provide you with custom-made tickets to hand out for your event.

Cash Bar – All drinks are on a cash basis to the guest.

Host Kegs – A specified number of kegs and type of beer is ordered from our facility. We have domestic, specialty, and imported beers.

Host Wine – Served by the glass and charged to the master account by the bottle. Please refer to our wine list.

Coffee Service Buffet – Per Gallon

Punch - Per Gallon. Non-alcoholic with a fruit base

Corkage - For servicing each bottle of wine or champagne brought into the facility. Prior arrangements are required.
