

# *Beverage Service*

We offer a variety of bar options and you may choose a specific setup or combine them throughout your evening. Your in-house event coordinator will work with you to help select the right beverage service for you and your event. **We do not allow you or your guests to bring in their own alcohol to your event.**

We do not require minimum purchases on your bar. However, with any private bar there is a service and setup fee. Cragun's requires one bar per 100 guests.

There are many different combinations you can use on your bar such as:

**Host Bar** – A host bar is billed to the master account or any other designated account. Our beverage personnel will keep a running total of all drinks served during a specified time or a set budget.

**Ticket Bar** – We will provide you with custom-made tickets to hand out for your event. Tickets not used may be turned in for credit.

**Cash Bar** – All drinks are on a cash basis to the guest.

**Host Kegs** – Many varieties of keg beer are available to order from our facility.

**Host Wine** – Served by the glass and charged to the master account by the bottle. Please refer to our wine list, or ask coordinator for specific brands of your choice.

**Coffee Service Buffet** – Available per gallon or per person table service.

**Host Soda** - Available at bar and billed based on consumption.

**Punch** - Available per gallon. Non-alcoholic with a fruit base.

**Hot Cocoa/Hot Apple Cider** - Available per gallon or per person table service.

**Corkage** - For servicing each bottle of wine or champagne brought into the facility. Prior arrangements are required.
